

## Skyware Automations Pvt Ltd

As part of this hackathon organized by the IIC MSIT in collaboration with Skyware Automations Pvt Ltd.

As a submission for this we have managed two github repositories:-

<https://github.com/Yuvraj883/Node-Express-API> for the backend and

<https://github.com/Yuvraj883/Hackathon-Skyware> for the frontend part.

For the backend part, we have used Express Js to write the APIs for the blog, whereas for the frontend part we have used HTML, CSS, and js.

The design for this project was prepared using photoshop.
